

Quality and FSC® CoC Policy

We support the protection of global forest resources by working with all our strength to be an exemplary organization in our industry.

We have adopted the production of paper and corrugated packaging from approved legal forest products and/or recycled paper as one of our main objectives.

In order to achieve this objective and to ensure continuous improvement and sustainability, we will follow the principles below;

- Being always in compliance with the related standards and rules specified in the related laws and regulations.
 - Being one of the leading companies in our sector about environment, Occupational Health and Safety
 - Being customer-oriented, listening to the voice of our customers and ensuring customer satisfaction continuously.
 - Providing opportunities for further improvement to our employees and suppliers with team spirit
 - Providing high quality services and products, which suitable for human health at optimum cost by focusing on product desing and development
 - Increasing the efficiency of all our processes without any compromise on product- and service quality by reviewing our business processes in a preventive approach.
-
